

**PRECISION FEEDING.
SMARTER RESULTS.**

Comco has designed an easy-to-use, low maintenance micro system that is perfectly suited for feedlots and dairies.

System Highlights

- Handles dry & liquid micro-ingredients
- Works with probiotics, antibiotics, enzymes
- Micro Feeders for very low-inclusion dosing
- Bin Sizes: Custom options – 6.5 ft³ (large) and 4 ft³ (small)
- Loss-in-weight scaling system for fast and accurate weigh-up of ingredients
- Vibratory Feeders: More accurate than augers
- Low Maintenance Components: Pumps and components designed to minimize wear
- 1-12 Bin Configurations: Tailored layout for each operation
- Stainless Steel Contact Surfaces: Clean and corrosion-resistant
- Inventory Management: Optional individual bin scales for live tracking
- Seamless Integration: Connects to feed management platforms
- Pre-wired & Pre-plumbed: Faster installation and setup
- 24/7 Remote Support: Always available support team

Comco also provides...

Feed mill automation · Engineering design · CSA certified panel building
In-line dry flow weighing devices · Water dosing systems

TRUSTED BY FEEDLOTS & DAIRIES ACROSS NORTH AMERICA

WHY USE A MICRO INGREDIENT SYSTEM?

Precision Feeding: Feed high-producing and low-producing groups differently.

Ingredient Flexibility: Easily switch ingredients based on supply, cost, or herd needs.

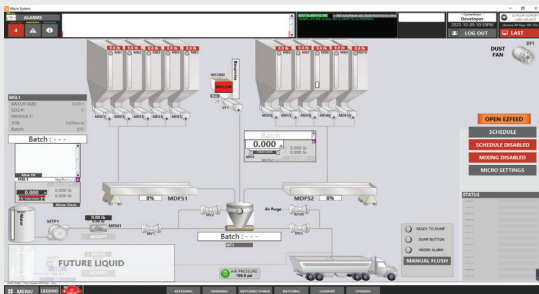

Consolidated Rations: One system for all herd types.

Instant Adjustments: Change rations in real-time based on daily conditions.

Low-Inclusion Capabilities: Ideal for microbials, probiotics, antibiotics, prebiotics.

Bin Scales

HMI Screen

Software Overview

Comco's software allows real-time control of feed batching from a user-friendly touchscreen interface. It supports preset recipes, live inventory tracking, custom reporting, and seamless integration with herd management software.

Features:

- Touchscreen-based batch selection and control
- Tracks bin inventory and logs every batch
- Connects to feed management platforms using API
- Real-time diagnostics with 24/7 remote support
