comco
systems & automation specialists

Industrial Automation & Electrical Systems Specialists

WE DESIGN, BUILD & SUPPORT INDUSTRIAL CONTROL SYSTEMS. PLC/DCS programming · custom panel manufacturing · electrical engineering · 24/7 support — from a single process to full plant automation, across North America.

What We Do

PLC / DCS programming
Custom logic for your process — single loop or full plant

Panel manufacturing
Built in-house at our 10,000 sq ft CSA/UL shop in Saskatoon

Electrical engineering
Stamped drawings, specs & full Alberta permitting authority operations

24/7 operational support
Live engineers — not a voicemail — when your line goes down

Data & workflow automation
Dashboards, historian implementation, paperless

Commissioning
On-site & remote startup, testing, and operator training

What This Means For You

No brand loyalty. We design around your process — Rockwell, Siemens, Schneider, whatever fits.

One team, start to finish. Engineering, panels, programming & commissioning — no handoffs.

24/7 live support. When your line goes down at 2 a.m., you reach a real engineer.

No permitting delays. 40 years of North American code knowledge keeps your project moving.

40
years in operation

10k
sq ft CSA/UL panel shop

3
offices: AB, SK, IA

What can COMCO solve for you?

Outdated controls putting you at risk?
We modernize legacy systems without shutting you down longer than necessary.
Building or expanding a facility?
Controls design, panel builds & commissioning — all under one roof.
Losing production time to manual processes?
We automate workflows and build real-time dashboards for faster decisions.
Need a reliable long-term support partner?
Long-term service agreements with 24/7 coverage — we stay with you after startup.

Services in Automation

- Industrial Control Systems
- Custom Panel Manufacturing
- Advanced Automation & Cybersecurity
- 24/7 Operational support
- Long-term service Agreements

Services in Electrical & Microgrid Solutions

- Electrical engineering design
- Protection, Controls and Network
- Life Safety System Services
- Advanced Condition-Based Maintenance (CBM)
- Data Centers
- Operational Support

GLOBAL REACH. LOCAL ACCOUNTABILITY.

How We Work With You

Full Turnkey
Design through commissioning, one partner.

Standalone Services
One scope, delivered clean.

Staff Augmentation
Qualified engineers, ready to work within your team.

Industries we Serve

Oil & Gas | Mining | Feed & Grain | Ports & Terminals | Chemicals | Processing | Material Handling | Pet Food | Manufacturing
