comco
systems & automation specialists

Industrial Automation & Manufacturing Systems Specialists

WE DESIGN, BUILD & SUPPORT INDUSTRIAL CONTROL SYSTEMS. PLC/DCS programming · custom panel manufacturing · commissioning & 24/7 support — helping manufacturers modernize, automate and grow.

What We Do

PLC / DCS programming
Custom logic for your process — single loop or full plant

Panel manufacturing
Built in-house at our 10,000 sq ft CSA/UL shop in Saskatoon

Electrical engineering
Stamped drawings, specifications and industrial control system design

24/7 operational support
Live engineers — not a voicemail — when your line goes down

Data & workflow automation
Dashboards, historian implementation, paperless

Commissioning
On-site & remote startup, testing, and operator training

Typical Projects

- Plant modernization & control system upgrades
- PLC-5 & SLC to ControlLogix migrations
- Manufacturing line upgrades
- Custom control panel fabrication
- SCADA & historian implementations
- Process automation projects
- Material handling systems
- Startup & commissioning support

40
years in operation

10k
sq ft CSA/UL panel shop

24/7
live support

What can COMCO solve for you?

Running ageing PLC systems?
Modernize legacy controls with minimal downtime.
Need to increase throughput?
Automation and process improvements that improve production.
Struggling to find controls expertise?
Access experienced engineers and automation specialists.
Expanding a production line?
Design, panels, programming and commissioning from one partner.

Platforms & Technologies we Support

- Allen-Bradley / Rockwell Automation
- Siemens
- Schneider Electric
- Ignition
- SCADA
- EtherNet/IP
- Profinet

Project Delivery

- Design & Engineering
- Panel Fabrication
- Programming
- Commissioning
- Ongoing Support

LOCAL SUPPORT.
NATIONAL CAPABILITY.

How We Work With You

Single Source Partner
Engineering, fanel fabrication, programming, and commissioning from one team.

Lifecycle Support
Concept → Design → Build → Startup → Optimization → Support

Flexible Engagement
Turnkey projects, standalone services or embedded engineering support.

Industries we Serve

Packaging | Food & Beverage | Feed & Grain | Automotive | Aerospace | Building Products | Plastics & Extrusion | Material Handling | Manufacturing | Metals & Fabrication
